Need Dental Care?

Finding a dentist can be a challenge...
If you have Medicaid or no insurance,
we have good news for you!

DENTAL HOME PROJECT

I-Smile™ links children and families to
dental homes and the care they need.

An Ounce of Prevention...

It is best to get dental care
before problems start.

 Prevention is the best medicine.
Don't wait until it hurts.

 Children should have their first
dental visit by age 12 months.

 If your child has dark spots on
their teeth or says it hurts they
need to see a dentist very soon.

Care Coordination

-  Referrals to dentists.
-  Appointment reminders
-  Transportation and translation services when needed.
