

## Purpose

Trauma 2016 will focus on a variety of topics for the healthcare professional working in a trauma setting.

## Objectives

Upon completion the participant will be able to:

- Describe the current management of traumatic brain injury.
- Discuss appropriate management for pediatric trauma and correlate mechanism of injury with anatomical findings on autopsy.
- Identify ways for EMS Systems and Hospitals to work together creating a stronger system.
- Identify necrotizing soft tissue infections and priorities of treatment.
- Summarize the concepts of tactical medicine
- Describe Mass Casualty Incident Management and how it was utilized in the events of May 8, 2015, on Interstate 80 in Iowa County.
